

## **FISCAL NOTE**

### **SB 2147 - HB 2094**

January 27, 1998

**SUMMARY OF BILL:** Clarifies that the Obed River and those portions of Clear Creek and Daddy's Creek in Cumberland County, Tennessee, shall be classified as Tier II high quality waters and shall not be designated as Outstanding National Resource Waters or classified as Tier III high quality waters.

#### **ESTIMATED FISCAL IMPACT:**

**Minimal**

There is no immediate impact; however, by designating these waters as Tier II high quality waters means communities which seek to expand water treatment facilities in the future will have to meet higher standards or obtain an exception.

#### **CERTIFICATION:**

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, reading "James A. Davenport". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

James A. Davenport, Executive Director
